

# ACOA Mission and Vision

---

## **Mission**

The mission of the Atlanta Commissioned Officers Association of the U.S. Public Health Service is to offer opportunities to Atlanta based officers to give back locally to the community, enjoy camaraderie and esprit de corps.

In meeting its commitment, the organization will provide various opportunities throughout the year to participate in professional development activities, volunteer in the community, and attend social and formal events.

## **Vision**

The Atlanta Commissioned Officers Association of the U.S. Public Health Service is the premier, award-winning local COA branch that supports the National COA and ACOA's active, inactive, and retired officers.
